FISHERS, INDIANA, FEBRUARY 18, 1925

NUMBER 5

BASKET TOURNEY AT FISHERS ON FEB. 20 AND 21

Independent Teams Will
Try For the Sectional
Championship

FOURTEEN TEAMS
HAVE ENTERED

Red Arrows Won From
the Hoosier Hits the
Past Week

There will be the best basket tourney of central Indiana played at Fishers this week. Some of the best teams of Indianapolis have entered in this tourney and the best teams of Hamilton county have entered.

As far as known there have been fourteen teams entered so this will make two days of play to decide the championship of this section.

The tickets for this tourney will be on sale at most every business house in Fishers and there will be some sent to every manager to sell to his followers as there are always some rooters who come with every team. These tickets will sell at \$1.00 each.

So if everyone wants to see a lot of good basketball between the best independent basket ball teams in the state come to Fishers on the 20th and 21st and you can see all the basket ball you want in two days for one dollar.

The Fishers Red Arrows won an easy game from the Hoosier Hits by the score of 45 to 21. Mason seemed to be best for the losers while Emery, Castetter and Clauson seemed best for the winners.

The Red Arrows seem to be rounding into form as they showed their ability to play real basket ball in this game. While they have not been going so good this season, it is no sign some team had not better watch them in this coming tourney. They are getting their heads together and are playing a brand of ball that is hard for opponents to stop.

FISHERS HIGH SCHOOL SONG "Our Dear Old High School"

Fishers High School students are we,
Seeking knowledge ever we'll be,
Our lives to improve we shall try,
Dear old Fishers High.

Chorus:
Fishers our dear old Fishers High School,
Fishers the school we love so well,
Ever we will submit to your rule,
Ever to you our praises tell,
Sacred the mem'ry we shall cherish,
Of friends and teachers all so true,
Your colors red and white shine thru the night,
Dear Fishers High School for you.
(2nd Verse)
Fishers High School, dear to my heart,
Sad the day when we have to part,
Happy days are now passing by,
Dear old Fishers High.

VALENTINE PARTY
February 12th the Golden Hour Sunday school class had a party at the home of Mr. and Mrs. Butz. Games were played and a contest was given by the teacher. The house was decorated with tiny hearts. They also had a valentine box. Refreshments of ice cream, cake and hot chocolate were served. Those present were Mary Castetter, Roger Brizendine, Clarence Castetter, Foneta and Alvin Randall, Marion Askren, Austin Flanders, Alice Kingery, Marjorie Manship, Dorothea Moore, Paul Kirkpatrick, Hollis Nance, Esther Messersmith, Edward Humes, Buella Irene and Paul Butz. The evening was greatly enjoyed by all present.

OUR LEGISLATURE

Our speaker is a witty guy,
He keeps the rules so true
We hardly know what to do;
Yet he never bats an eye.

His first clerk quit her place,
But his chairmen are yet strong
and true;
Because they have not much to do,
But with the clerk that was not
the case.

Of orators we have but few,
While of listeners we have plenty,
They number quite near twenty,
But good orators only number one.

Our order it is fine,
Our bills they're no good,
At least but few have stood,
But we always meet on time.

One member we have in town,
Has an excellent voice for speech,
But he leaves the bill and tries to
preach,
Then the speaker calls him down.

FINAL LECTURE A GOOD ONE

Course Will Close With
Number By the School

On Jan. 19th, the third number of the lecture course was given. This time the church was used, being better suited for a lecture. The program started off with a vocal solo by Mrs. Schooley and a violin solo by Miss Estelle Long. Following these two numbers the speaker, Robt. L. Kemple, was introduced and also his subject, "The American Boy," was announced. So entertaining was Mr. Kemple that he held the attention of the entire audience for over an hour. There was enough humor to keep everyone awake and enough "solid food" to make all sit up and think.

His attitude toward the American Boy was one of sympathy. He declared that the boy of today is no worse than the boy of fifty years ago.

Most of those who had heard all three numbers declared this one to be the best. At the close of the lecture he offered a new course for next year. The vote was almost unanimous in favor of contracting the course. The fourth number of the course for this year is to be given by the school. Work is being done on the program now. The exact date will be announced soon. Watch for the announcement.

Do Present Worldly Conditions Mark Any Progress In Civilization?

(By Edgar L. Harrison.)
The moth may be alive to his reactions and get along as well as if he were tenderly cared for by some external agent, but the little human infant left with necessary provisions for liveliness but with no help in the task of becoming mature is at a loss and cannot possibly be the same fit man as was his father before him.

Therefore, in the course of human events there has been prepared a specialized agency of formal education which aims to control in a measure the experiences of the child during that plastic period of infancy.

In all the atmosphere of pessimism and doubt there is but one light and hope, and that is the school. Civilization is indissolubly bound up in the ever lengthening period of immaturity, and education, which is the guardian of civilization, owes its efficiency to the same factor. In return for this priceless advantage education must in some way make up for nature's lack of foresight. It can do this by replacing ignorance and mystery with knowledge; in part by insuring an environment that is free from the suggestions of evil, in part by segregating the sexes, and in part by developing the highest ideals of purity and honor. At best the task is Herculean; but if education fails in this one supreme test, it needs no vision to perceive that human progress for which education stands, will sooner or later end in disaster.

NOTICE—The tub society has disbanded until warm weather, due to the severe colds received from their last tub meeting.

BASKET BALL FOR THE PAST MONTH

Five Games Played Since
Previous Issue of the
Communicator

Since the last Communicator went to press there have been five games.

On Jan. 9th, Fishers met Lawrence and was defeated. During the first half Fishers played them off their feet. The score stood 20 to 7 in favor of Fishers. In the second half Lawrence came back and played Fishers off their feet. The final score was 38 to 25 in favor of Lawrence.

The following Friday night the Silent Hoosiers came to Fishers. This was a close and exciting game all the way through, but Fishers won by the score of 26-22.

On Jan. 23rd came the surprise of the season. The strong team from Carmel came over to take Fishers into camp. Carmel took the lead but was overtaken after a few minutes. Fishers then continued in the lead until just a few minutes before the close of the game, when Carmel forged ahead and won 41-38.

The following night Fishers met Westfield. Both teams having played the night before, were not in shape to put out the best brand of ball. Fishers won 30-20.

Saturday night the return game with the Silent Hoosiers was played. This game was fast and snappy. The Silent Hoosiers took the lead but Fishers forged ahead before the first half ended. They were still one point in the lead one-half minute before the final whistle, when the Hoosiers came through with a field goal and won 24-23.

CHICKEN SUPPER FOR B. B. BOYS

Event Took Place At the
School House

The Boys' and Girls' basket ball teams enjoyed a chicken supper at the school house. For several reasons it was decided to serve supper to the basket ball team before it departed for the County tournament Friday evening, Jan. 30th. The affair was planned in such a way that supper was ready shortly after school was dismissed so that the eating would not interfere with the playing three hours later.

The meal also was planned so that nothing was served which was not regarded as being easily digested. Chicken and mashed potatoes were the principal foods.

The girls assisted by Mrs. Klepfer, Mrs. Shaffer and Mrs. Long prepared and served the meal.

Most of the cooking was done in the office and the tables were set in the lower hall.

The entire group ate at the same time and all seemed to have a good time.

CAN YOU IMAGINE?

Dorsey Dodd as a dwarf.
Russell Howe as a blonde.
Edgar Frazier as speaker of the house.

Wilma Brizendine looking sober.
Nina Nance weighing ninety-five pounds.

Mary E. Hamble in the cement vault business.
Kenneth Kirkpatrick in knec-trusers.

DeLores Tate with black hair.
Ethel Mantz with bobbed hair.
Minnie Johnson taking anti-fat.
Maude McGinety with long golden braids.

Dorothy Messersmith's shoes burning off her feet.
Nina Nance playing basket ball.
Lois Clinton having a date.
Bob Johnson eating peanuts.

O. M. Fisher and Mrs. F. H. Young have been constantly at the bedside of their father, Thomas A. Fisher, who has been suffering with a severe illness for the past two weeks. He remains about the same.

LOST—One gray kid glove, lined, Mr. Quar.

REV. BORDERS GAVE OPEN- ING EXERCISES MONDAY MORNING

Rev. Borders addressed the high school and 7th and 8th grade student body Monday morning. His subject was "The Four Square Man and Woman."

The idea which he put forth to the students was to have high ideals, always give a problem just consideration, be strong in your decisions and have courage to do that what is right.

He used as an illustration the Bible story relating to the figure having four faces on one head. The faces were of an ox which brings the idea of strength, that of a man which gives the idea of wisdom or power of reasoning and knowing right and wrong, that of a lion which gives the idea of courage and that of an eagle which gives the idea of lofty heights or high ideals.

The address was followed by a short prayer.

ENTERTAINMENT BY 7TH AND 8TH GRADES

Presented "The Persecuted Dutchman" In a Capable Way

The high school and grades were entertained Friday morning by the 7th and 8th grades.

The entertainment was the one act play "The Persecuted Dutchman." John Smith or Schmidt, a collector for a curtain company, takes a room in a hotel owned by Mr. and Mrs. Plentiful, and trouble for the Dutchman begins. After being cheated out of 2 cents he mistrusts the hotel and more so when he is charged 50 cents for a bed for the night.

A young couple, the Hon. Augustus Clearstarch and Arabella Blowhard have eloped and come to the same hotel and they are cheated out of \$50. Mr. Blowhard and Charles Soberly, a suitor of Arabella's follow the couple.

The thief cheats the father out of \$100 for he can't get his daughter and he then escapes.

During the night the Dutchman is attacked by Mr. Blowhard with a whip and is thought to be the thief of daughter and money. Later in the night he is attacked by Charles Soberly with a gun and they have a harmless duel.

After much trouble the affair was all straightened out and every one is forgiven for the cruel treatment to each other and the poor Dutchman's troubles are all ended.

"AIRY NONSENSE FROM STA- TION PUNK"

According to the sidewalk "Shicks" out our way, even the Scandinavian flappers who are down on tobacco are up to the snuff.

One thing about the man that invented the vacuum. He produced absolutely nothing and was given credit.

You can say what you like about a loud speaker. But its a sound invention.

"This must be a radio bug," said the girl, when she found a cockroach in her ear phone.

Heaven, to the colored man, is a great big chicken coop in the middle of a watermelon patch, with "poke" chops floating in the air.

We willingly suggest to avoid punctures be careful not to run over chickens with pin feathers.

Strange to say a dead motor usually adds life to the party.

It's not always the ice man's fault, if your wife treats you cold. Any girl can earn a good salary by marrying a poor man. She may not get it, but she'll earn it.

Our definition of a real gentleman farmer is one who puts evening dress on his scarecrows before it gets dark.

REVIVAL MEETING IS IN PROGRESS AT BRITTON

Attendance Not Large
But Much Interest Is
Being Shown

PLAN REMODEL
FISHERS CHURCH

Canvass For Funds Is
Now In Progress—Oth-
er Church News

A revival meeting is being held at the New Britton church. While the attendance has not been large, good interest has been manifested by those present. A young people's choir has been organized with Miss Roberta Dodd as director and the special choir numbers have been well received. Special attention is being paid to Bible reading and most of those who attend are reading a chapter each day of the meeting. These services will probably continue until February 15th.

The Fishers church building committee is making a general canvass for funds for the remodeling. Every person in the community will be given an opportunity to help. Plans have been made for improvements which will cost about three thousand dollars. A new furnace will be installed and two new Sunday School rooms will be added. The Ladies class has already arranged for redecorating at an estimated cost of \$800. Work will probably be started within the next month.

The fourth quarterly conference for the Fishers charge is scheduled for March 8th. Dr. Arnold will be present and preach at the evening service in the Fishers church. Final reports will be made for the years work.

The annual conference will be held at Anderson, Indiana, from April 15th to 20th. Several members on the charge are planning to attend this session of the annual conference.

The February social meeting of Zion church was held at the home of Mr. and Mrs. Dennis Fields, last Tuesday evening. A good time was reported by all present.

At the Sunday School election at the Britton church, Mr. Brandon was reelected as superintendent for another year and most of the other officers were re-named.

Britton Sunday School has made fine progress during the year and steady growth seems assured for the coming year.

The True Blue class of the Fishers M. E. church met with Mr. and Mrs. J. W. Borders for the January meeting at the home of L. M. Church. A brief business session was held, after which a good social time was enjoyed by all with games and contests. Ross Beaver and George Carrier were the contest prize winners. Following the social hour refreshments of ice cream, cake and coffee were served. Those present were: Mr. and Mrs. John Crossley and children, Mr. and Mrs. Max Raynolds and children, Mr. and Mrs. Geo. Carrier, Mr. and Mrs. Ross Beaver and daughter Betty Lou, Mr. and Mrs. Richard Harold and L. M. Church. The February meeting will be held at the home of Mr. and Mrs. G. V. Carrier.

WILLING WORKERS MEET

The Willing Workers of Fishers M. E. Church met at the home of Mrs. Cora Flanagan, Wednesday afternoons. Those present were Emma Butz, Estella Barnes, Mrs. A. W. Trittip, Mrs. Earl Klepfer, Mrs. Bert Klepfer, Mrs. Albert Clawson, Mrs. O. M. Fisher, Mrs. Ora Klepfer, Mrs. Shaffer and Jean Alice Klepfer. After the business meeting, games were played. Refreshments were served which consisted of ice cream, whip cream, cake, and coffee. The next meeting will take place at the home of Mrs. W. F. Barnes.

ITEMS FROM ROOM 1

Attendance Has Been Good—Interest In Automobile Race

The attendance in Room 1 has been very good. Eleven have not been absent this year. They are Pauline Crossley, Milo Dodd, William Davis, Kenneth Garrity, Amy Jackson, Max McGhehey, Marion Wallace, James Whitsel, Virgil Jackson, Irene Dodd and Vera Sutton.

Much interest has been shown in the automobile race just started by the first and second grades. Each row has been named for a different make of automobile. The point is to get as many credits for your row as you can. Each credit counts one mile. Real racers never laid in their supply of gas, oil and spare tires, more carefully than these "racers" hunt the hard words and questions that will leave their rivals far behind.

The tooth chart is still very popular. Only two children having failed to wash their teeth this month.

Several boys and girls from the first and second grades have entertained Room 2 by reading to them. Those who have visited Room 2 are Vera Sutton, Louise Kidwell, Elizabeth Breece, Gene Klepfer, Pauline Crossley, Helen Stuart, Max McGhehey and Gerald Carrier.

We were very glad to have as visitors this month, Mr. Morris, trustee of Clay township, Miss Blanche Hamble, a former teacher at Fishers, and Miss Bernice Walker, of Anderson.

I WONDER

Where Mary Whitacre got her Mamma Doll.

If the Geometry class won't stop working propositions until Mr. Long catches up.

If Deen and Charlie really like candy.

Why the Sophomore boys are always laughing in English class.

Who's pin Bob Abney is wearing.

Why the seventh and eighth grades gave a yell last Friday for the H. S.

If the girls liked to wash the dishes after they set for four days.

Why Mrs. Schooley wants the Sophomores to write up "The Crazy House."

If Dee and Charlie found some one to buy them all the candy they want to eat.

If Mr. Long is telling the truth about his Geometry class.

Who Bob Abney was with Tuesday evening after school.

THE LAND OF GEE AND HAW
I have a home I'm not ashamed of,
In the land of Gee and Haw,
Where Jeff Davis found a pile of rocks
And called it Arkansas.

And I am going back to flat rock,
Where the corn fed people stay,
And they make a little moonshine,
Just to pass the time away.

I can see old Hank and Silas,
A-firing up the drum
To run a drink that's guaranteed
To put sorrow on the bum.

It glistens like the dew-drops,
At the dawn of early morn;
And you can smell the boys' feet
That plowed the yaller corn.

It fills your heart with gratitude,
And keeps you feeling fine;
Like everybody was owin' you,
And you didn't need a dime.

'Tis the land of satisfaction,
Peace, love and friends reside,
And the farms they sit up edge-ways,
You can farm on either side.

Where they dance from dark to daylight,
Calling steps without a flaw;
With the fiddler full of pine top,
Playing "Turkey in the Straw."

When you read these lines, yours truly,
Will be there for evermore
Wading through the moonshine,
Singing "Sailor on the Shore."

And my address, should you want me,
Will be Flatrock, Arkansas,
Care o' Wilcat Hiram Johnson,
In the land of Gee and Haw.

Ralph Messersmith, a farmer near Fishers, has bought a farm near Knox, North Dakota. The place consists of three hundred and eighty-eight acres, with good buildings. Mr. Messersmith will have a public sale the last of this month and sell what stock he will not need. The family intends to leave for their new home about the first of March.

Ralph Messersmith has returned from a trip to North Dakota, on business.

WANTED—A game. See basket ball girls.

FRANKTON FALLS BEFORE LAPEL LADS

FRANKTON, Ind., Feb. 17.—Lapel high school came back strong in the second period here Saturday night and won from Frankton 69-27. It was a costly loss for Bonge's crew, as Stanley, star forward, had to retire from the game soon after the start of the second half with a badly sprained ankle. It was stated last night that the injured member would probably keep the forward out of the game the remainder of the present season. Lapel led 25-17 at the half. Lineup and summary:

Frankton.	Lapel.
Taylor	H. Anderson
	Forward.
Stanley	R. Anderson
	Forward.
Campbell	Lloyd
	Center.
Castor	Hinshaw
	Guard.
Heath	Gentry
	Guard.

Substitutions—Frankton, Legg, Crouse. Lapel, Farmer, Montgomery.

Field goals—Taylor, 4; Stanley, 6; Legg, H. Anderson, 8; R. Anderson, Lloyd, 5; Hinshaw, 8; Farmer, 7; Montgomery.

Foul goals—Taylor, 2; Stanley, Campbell, 2; Castor, H. Anderson, 5; R. Anderson, 2; Farmer.

Referee—Black, Technical, Indianapolis.

Umpire—Crosley, Pendleton.

DOWN ON THE FARM

Down on the farm at half past four,
I slip on my pants and rush out the door;
Out in the yard I run like the dickens,
For I've got to milk the cows and feed the chickens.

Clean out the barn, curry Nigger and Jiggs,
Give Pedro some bran, and slop the pigs;
Work two horses, then eat like a Turk,
Then I am ready for a full day's work.

Work all summer till winter is nigh,
Figure up books and heave a big sigh;
Worked all year and haven't made a thing,
Got less cash than I had in the Spring.

But when spring rolls around I'll take another chance,
While the fringe grows longer on my one pair of pants;
My suspenders'll get another hitch and my belt another jirk,
Then I'm ready, by heck, for another's year's work.

Genuine Article

Salesmen may be gracious and cheerful, and yet lack knowledge of the goods they are expected to sell. This is a sad fault and a handicap to good salesmanship. A story is told of a genial storekeeper in central Ohio whose education in selling was of the kindergarten variety. A customer came in and asked for a little cheesecloth.

The storekeeper disappeared, but came back lugging a large specimen of a New York cheese. "Here's the cheese," he said, "but I'll be ding-busted if I know how I'm goin' to get the cloth off it!"

Bog Ornaments Irish Asset

One of the industries of Ireland has long been the manufacture of bog oak ornaments. Before the period of upheaval in Ireland the export of these goods from the Emerald Isle through the port of Dublin equaled a value of \$100,000 a year. The trade originated in the reign of George IV, soon after his visit to Ireland in 1821, London Titts says. At first all the ornaments were hand carved and polished, but machinery was used with the increasing demand. Yew, fir and birch, as well as oak, are woods used by the makers of the ornaments. The only necessity is that the logs shall have been long buried in the bogs.

Wedding Season in India

Customs in India bring annually a wedding season, marriages being practically unknown at other seasons. The wedding bells there ring from summer to late autumn and the bride must wear gold and silver trinkets and decorations, no man being so poverty stricken as to contemplate marriage without making the silver and gold presents. The metal must be imported from other countries, and this year there has been sent from New York to London for India more than \$2,000,000 each of gold and silver.—Ohio State Journal.

Early Advertising as Practiced in Old Rome

The restored ruins of Pompeii still show wall inscriptions and regular election campaign posters which often are signed by women. The same ruins tell us also about business advertising in ancient Rome. The show windows of Rome during the oldest time cannot be compared with their parallel in our modern trade world. For a long time it was impossible to buy the necessary glass, which was tremendously expensive. Besides, the window glass was milky and dim, and often iridescent, at any rate not sufficiently clear and transparent, writes H. Doelling in Frankfurter Zeitung, as translated for the Milwaukee Journal.

The Roman retailers, therefore, were content to exhibit their goods in an open stall in front of their homes; the shop itself was built into the home and served merely as a storeroom. The only means of advertising was the voice; he who barked loudest got the most customers!

Only after trade received a new stimulus by the conquests in the Orient and Occident did the Romans begin to adopt the business tricks of their tributaries, the Ponters and Asiatic Greeks. They installed regular show windows in their shops. Their goods were safe from theft behind bronze grates, and were provided with price tags and annotations. The merchants indicated on their shop doors the goods they furnished and their own names.

Sees Resin as Basis of Diamond Formation

Similarity between the X-ray pictures of the lattice structure of diamond crystals and of decaterpene, a resinous substance, is the basis for the claim advanced by Herr Decker, a Jena chemist, that diamonds originated from this material under enormous pressure and possibly heat, during long periods of time, according to the Berlin correspondent of Industrial and Engineering Chemistry.

Diamonds have long been known to be pure carbon in crystalline form, but what the original carbonaceous material was out of which they developed has been a subject of dispute. Resins contain hydrogen as well as carbon, and the theory of the German scientist assumes that, under the conditions of diamond formation, the hydrogen was literally slowly squeezed out of the raw material until at last nothing but pure crystalline carbon was left.

For Umbrella Protection

A well-known business man had a bad habit of losing umbrellas, and as they were usually expensive ones, he hit upon the happy idea of having his telephone number engraved on the handle. Since then he lost his umbrella half a dozen times, but owing to the telephone number he has always recovered it. The finder does not have to send it back; he rings up the number, and the owner gladly calls for it. If the finder is dishonest he will not feel comfortable with that telephone number, and if he himself loses it, as ten to one he will, a more honest person will eventually inform the original owner. The latter, of course, will know nothing of the umbrella's adventures. If only the umbrella could talk!

Father of Mail Service

Mail coaches were introduced into England in the year 1784 by one John Palmer of Bath. This worthy gentleman suffered much inconvenience from the mail leaving London on Monday, and not reaching Bath until Wednesday. He traveled the country advocating reform, and was set down as a bore. But the system of flying mails he was able to inaugurate lasted until the days of railways. Still, it was not much better than the system of the Roman mails, as established in the Third century, by which it seems possible that letters might have reached Rome, from England in three or four days if relays of galloping chariots could cover a thousand miles at 14 miles an hour.

PURNELL IN LINE FOR RECOGNITION

May Be Made a Member of the Steering Committee

A dispatch from Washington says that Congressman Fred S. Purnell, of the Ninth Indiana district, a supporter of Longworth for speaker of the national House of Representatives, may become a member of the steering committee of the House. Longworth and the others who are expected to have control of the House organization have proposed Purnell for the place. This committee, composed of only about a half dozen members, has much to do with

outlining the majority party's program in congress.

CLAY CENTER LOST TO LOCAL TEAM

Score Was 24 To 10 In Contest Feb. 6th

Friday, Feb. 6, the Clay Center team played Fishers at Fishers in a curtain raiser for the Red Arrows-Sheridan game. Although the Clay Center team were fine sports, they did not offer much opposition. The first half ended with Fishers at the long end of a 16 to 3 score.

The beginning of the first half found the Fishers second team playing. The final score was 24 to 10 for Fishers.

The Fishers Wonder team will probably play Carmel some time in the next two weeks. Coach Kinman is anxious to meet Carmel and to have his team uncork several new plays which will cause the team to live up to their name. The Red Arrows beat Sheridan 41 to 28.

ORIGINAL STORIES

My Life as a Snowman
One day it began to snow. Betty and Buddy, two little twins, came marching out of the house to play.

Betty said, "Let's make a snowman, Buddy."
"O, let's do," said Buddy.

So they made me into a snowman with a big hat, a ragged coat, and a broomstick. They called me "Raggedy" after my clothes.

After they had finished me they went into the house. Some boys then came along and knocked by head off.

It was a very sad moment for me, but soon Betty saw me and told Buddy. They then came out, put on my head again and went back in.

Pretty soon it began to sleet. The sleet stuck fast to me and made me slick and as hard as a rock. I was glad of this because nobody could knock me down. I stayed this way three days and was happy.

On the fourth day the children came out and made me fatter because I was growing thin.

On the fifth day the sun came out and melted me away and that was the end of poor me.

Beulah Butz.
Grade 4; age 8.

When I was a Snowman

One day I was out in the yard. I was wishing I were a snowman. Suddenly I felt myself turning into a snowman. The children had rolled some snow into balls and then they put the balls on top of one another.

After the children had finished they put a hat upon my head, a cane under my arm. They got coal for my eyes and the buttons for my coat. They put me in the front yard.

The dogs would bark at me until I would tremble with fear. The children would make hard snowballs and throw them at me. That was not much fun.

When the weather grew warm I began to melt. If I could have talked I would have told the children to get me some ice cream. But I could not talk, so I did not get the ice cream.

Mildred Messersmith.
Grade 4; age 10.

My Life as a Snowman

One day I felt myself falling. I was a snowflake. After two or three days the snow was hard enough for the children to play on it with their sleds.

One day the children said, "let us make a snowman."

First they rolled a ball so big they could not roll it any more. Then they rolled another ball about as big as the first one. They put the smaller ball on top of the larger one. Then they put a little one on that. They used coal for my eyes.

They threw snowballs at me but it did not hurt me.

The next day it was colder. The children came out and made enough snowmen for each child. Then they tried to see who could knock down their snowmen first. The next day it was very warm, by night I was melted and that was the end of poor me.

Helen Carrier
Grade 4; age 9.

VISITED LEGISLATURE

Civics Class Spent Tuesday, Feb. 10th, In Indianapolis

The Civics class attended the State Legislature Tuesday. In the morning they visited the House of Representatives and in the afternoon the Senate.

The class was introduced to the House by Speaker Leslie. Also each member of the class was introduced to L. N. Pittinger by Mr. Quear. Mr. Pittinger is majority floor leader in the House and chairman of the Ways and Means Committee.

"RAZZING" THE OFFICIALS

The "razzing" of officials is unnecessary, accomplishes nothing worth-while, and should not be permitted. The "razzer" should be requested to "root" or keep still. If he continues his unsportsmanlike tactics he should be escorted to the door, given his tainted money and told good day and good bye. Our High School students are not guilty of "razzing" as a rule. This objectionable feature of our games is put on by the too enthusiastic fan usually. School men must curb the "razzing" of officials or our good game of basketball will be lost. And we must not expect the officials to do all the curbing. They have enough to do if they officiate the game in a commendable way. However, it is true that Spaulding's Rules give the Referee authority to call fouls on the crowd for "razzing" and

such is recommended by the I. H. S. A. A. in case it is necessary. It is plainly the duty of Superintendents, Principals, Managers and Coaches to have crowds behave in such a way that officials can work games as they should be worked. This job needs our attention in the I. H. S. A. A. at the present time and we school men will need to show some courage and efficiency in handling it. We have too many good boys and girls, too many good men and women in our communities to permit a few individuals called "razzers" to spoil our games and our good fellowship. Our games and tourneys must assimilate or eliminate the "razzer" at once.
